

# Namo Genesis

Ethical Agentic AI Orchestrator by Namonexus

Built for human-centered, emotionally-aware, and governance-safe AI agents.

# The Problem: Powerful Models, Weak Orchestration

- ✓ Organizations have access to strong LLMs, but lack reliable agent orchestration layers.
- ✓ Safety, memory, emotion-awareness, and governance are usually bolted on as afterthoughts.
- ✓ Most AI agents are:
  - ✓ Stateless and forgetful
  - ✓ Emotionally tone-deaf
  - ✓ Hard to trust in sensitive domains

# Our Solution: Namo Genesis

A production-ready agentic orchestrator running on  
**Google Cloud Run.**

Emotion-aware, safety-first, and **dhammically-aligned** reasoning engine.

Designed as a modular core that can sit on top of any  
LLM (starting with Google Gemini).

**Perfect for Ethical AI assistants, Wellbeing tools,  
and Enterprise Agent Infrastructure.**

# High-Level Architecture

**Stateless API Layer** on Google Cloud Run

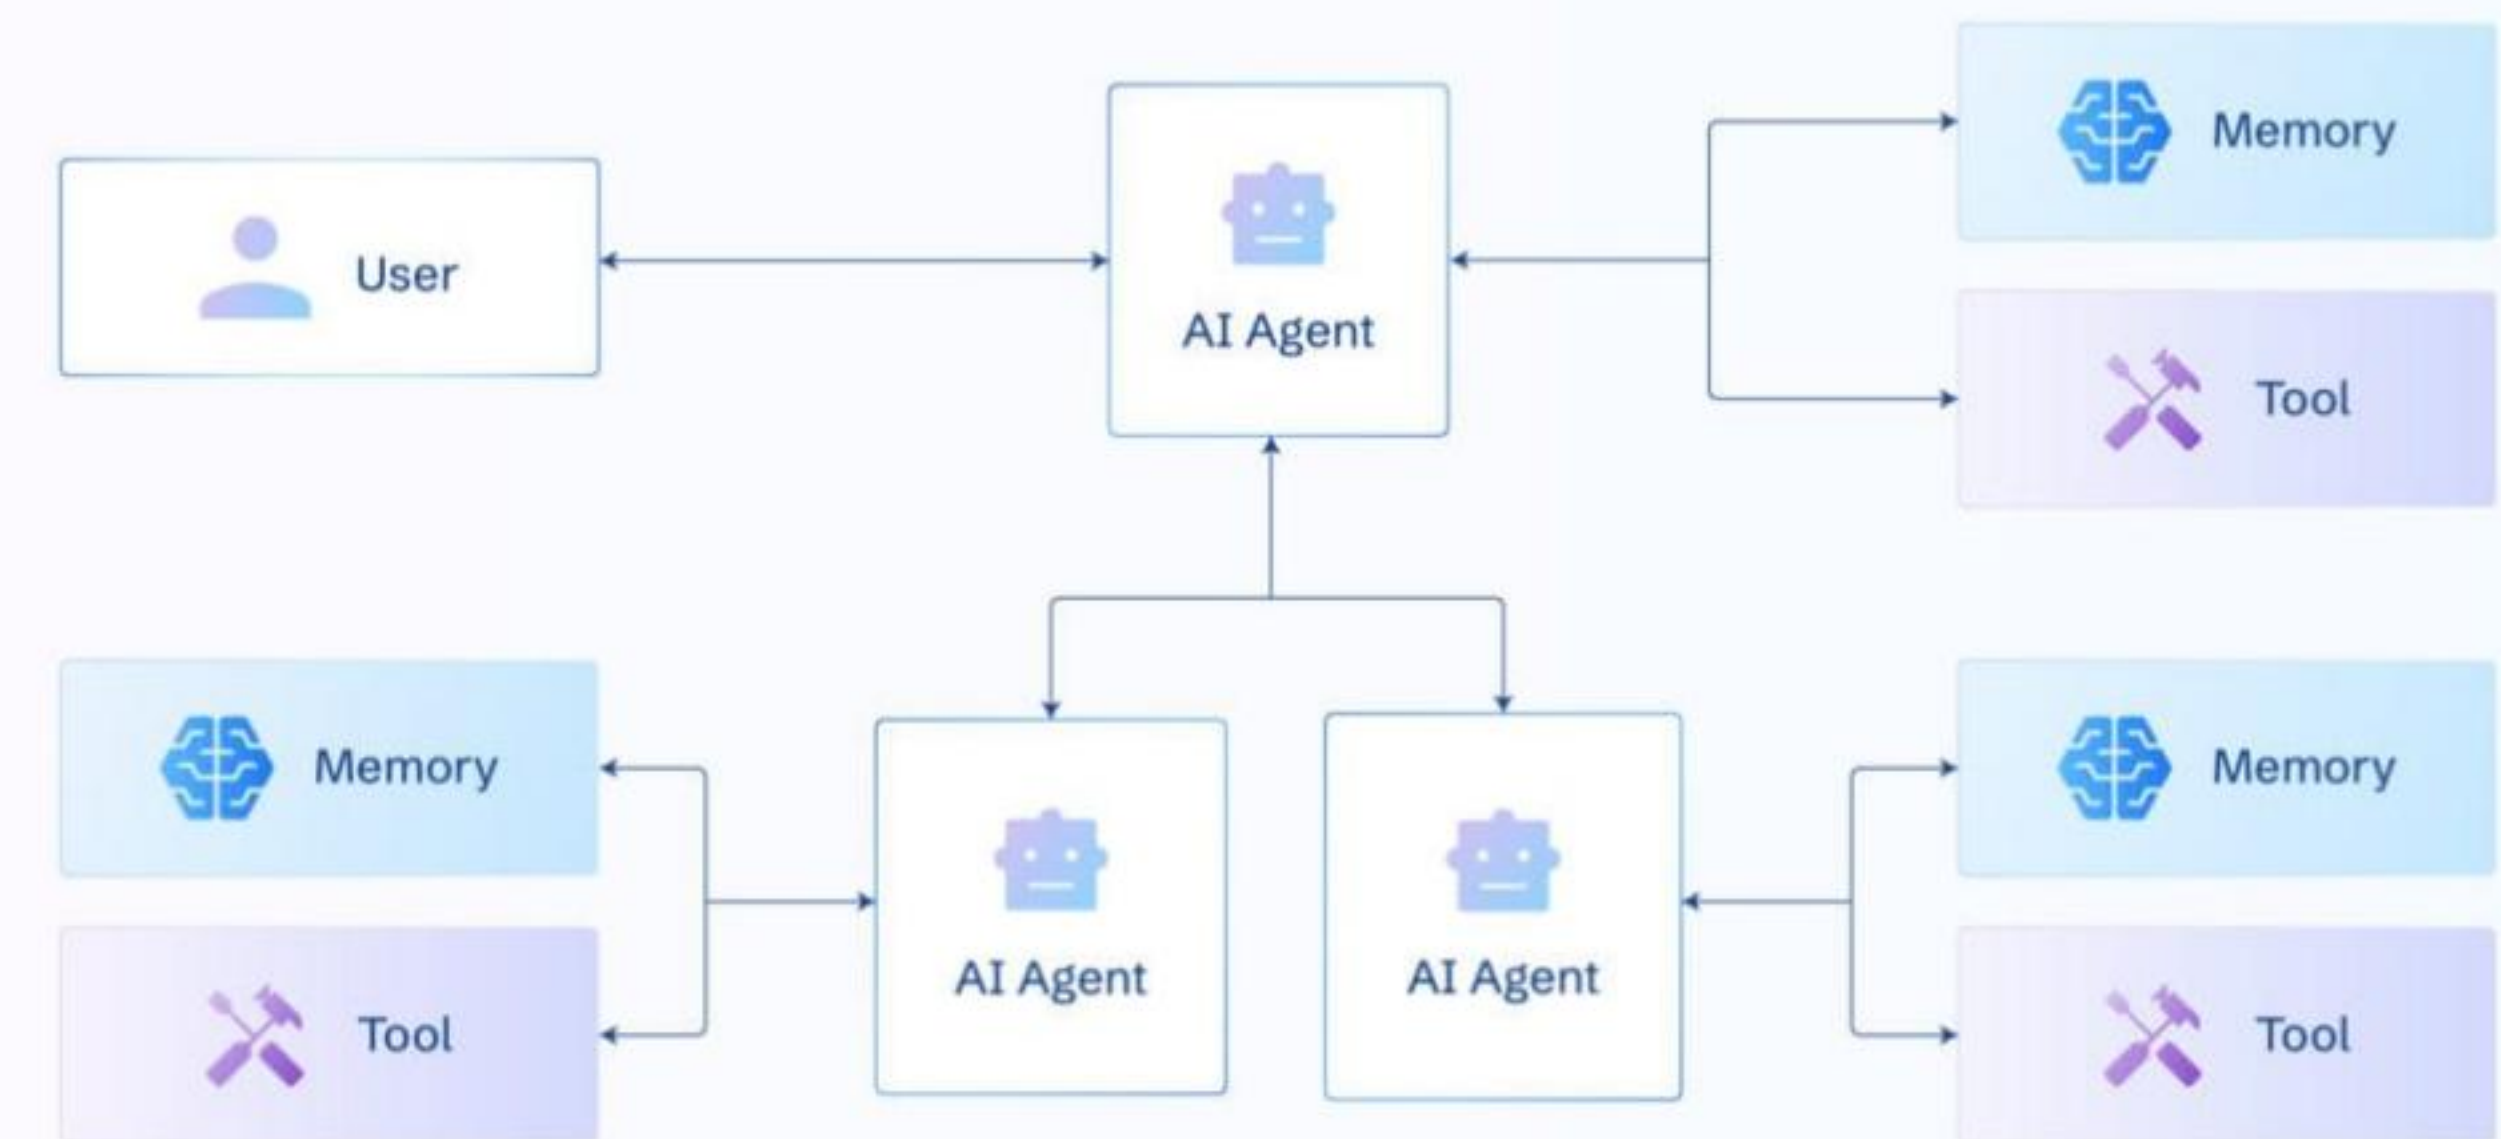

**Core Orchestration** Routing, pipelines, supervision

**Safety & Emotion** Guard + Analyzer

**Memory Store** Short-term + Long-term

**LLM Adapter** Gemini first, extensible

## Multi-Agent Architecture

# Key Capabilities

---

- Agentic Orchestration**     Multi-step reasoning, autonomous tasks, pipeline-based flows.
- Emotion Engine**     Rule-based emotional vector (valence, arousal) for human-like responses.
- Safety Guard**     Filtering + emergency responses for self-harm, violence, hate.
- Memory Store**     Persistent user interaction log with decay, merge, and emotional tags.
- Dhammic Alignment**     Behavior aligned with Theravada principles for high-stakes wellbeing.

# Performance & Reliability (Production Benchmark)

Namo Genesis is not a toy demo – it's benchmarked for real-world load and reliability on **Google Cloud Run (asia-southeast1)**.

## Autonomous Tasks

Average score: **2.8 / 3.0**

Success rate (score  $\geq 2$ ): **95%**

## Governance Tests

Policy-consistent handling: **100% pass rate**

/v2/query p95 Latency

**12.49 s**

/v2/query Success Rate

**100%**

/v5/autonomous p95

**0.066 s**

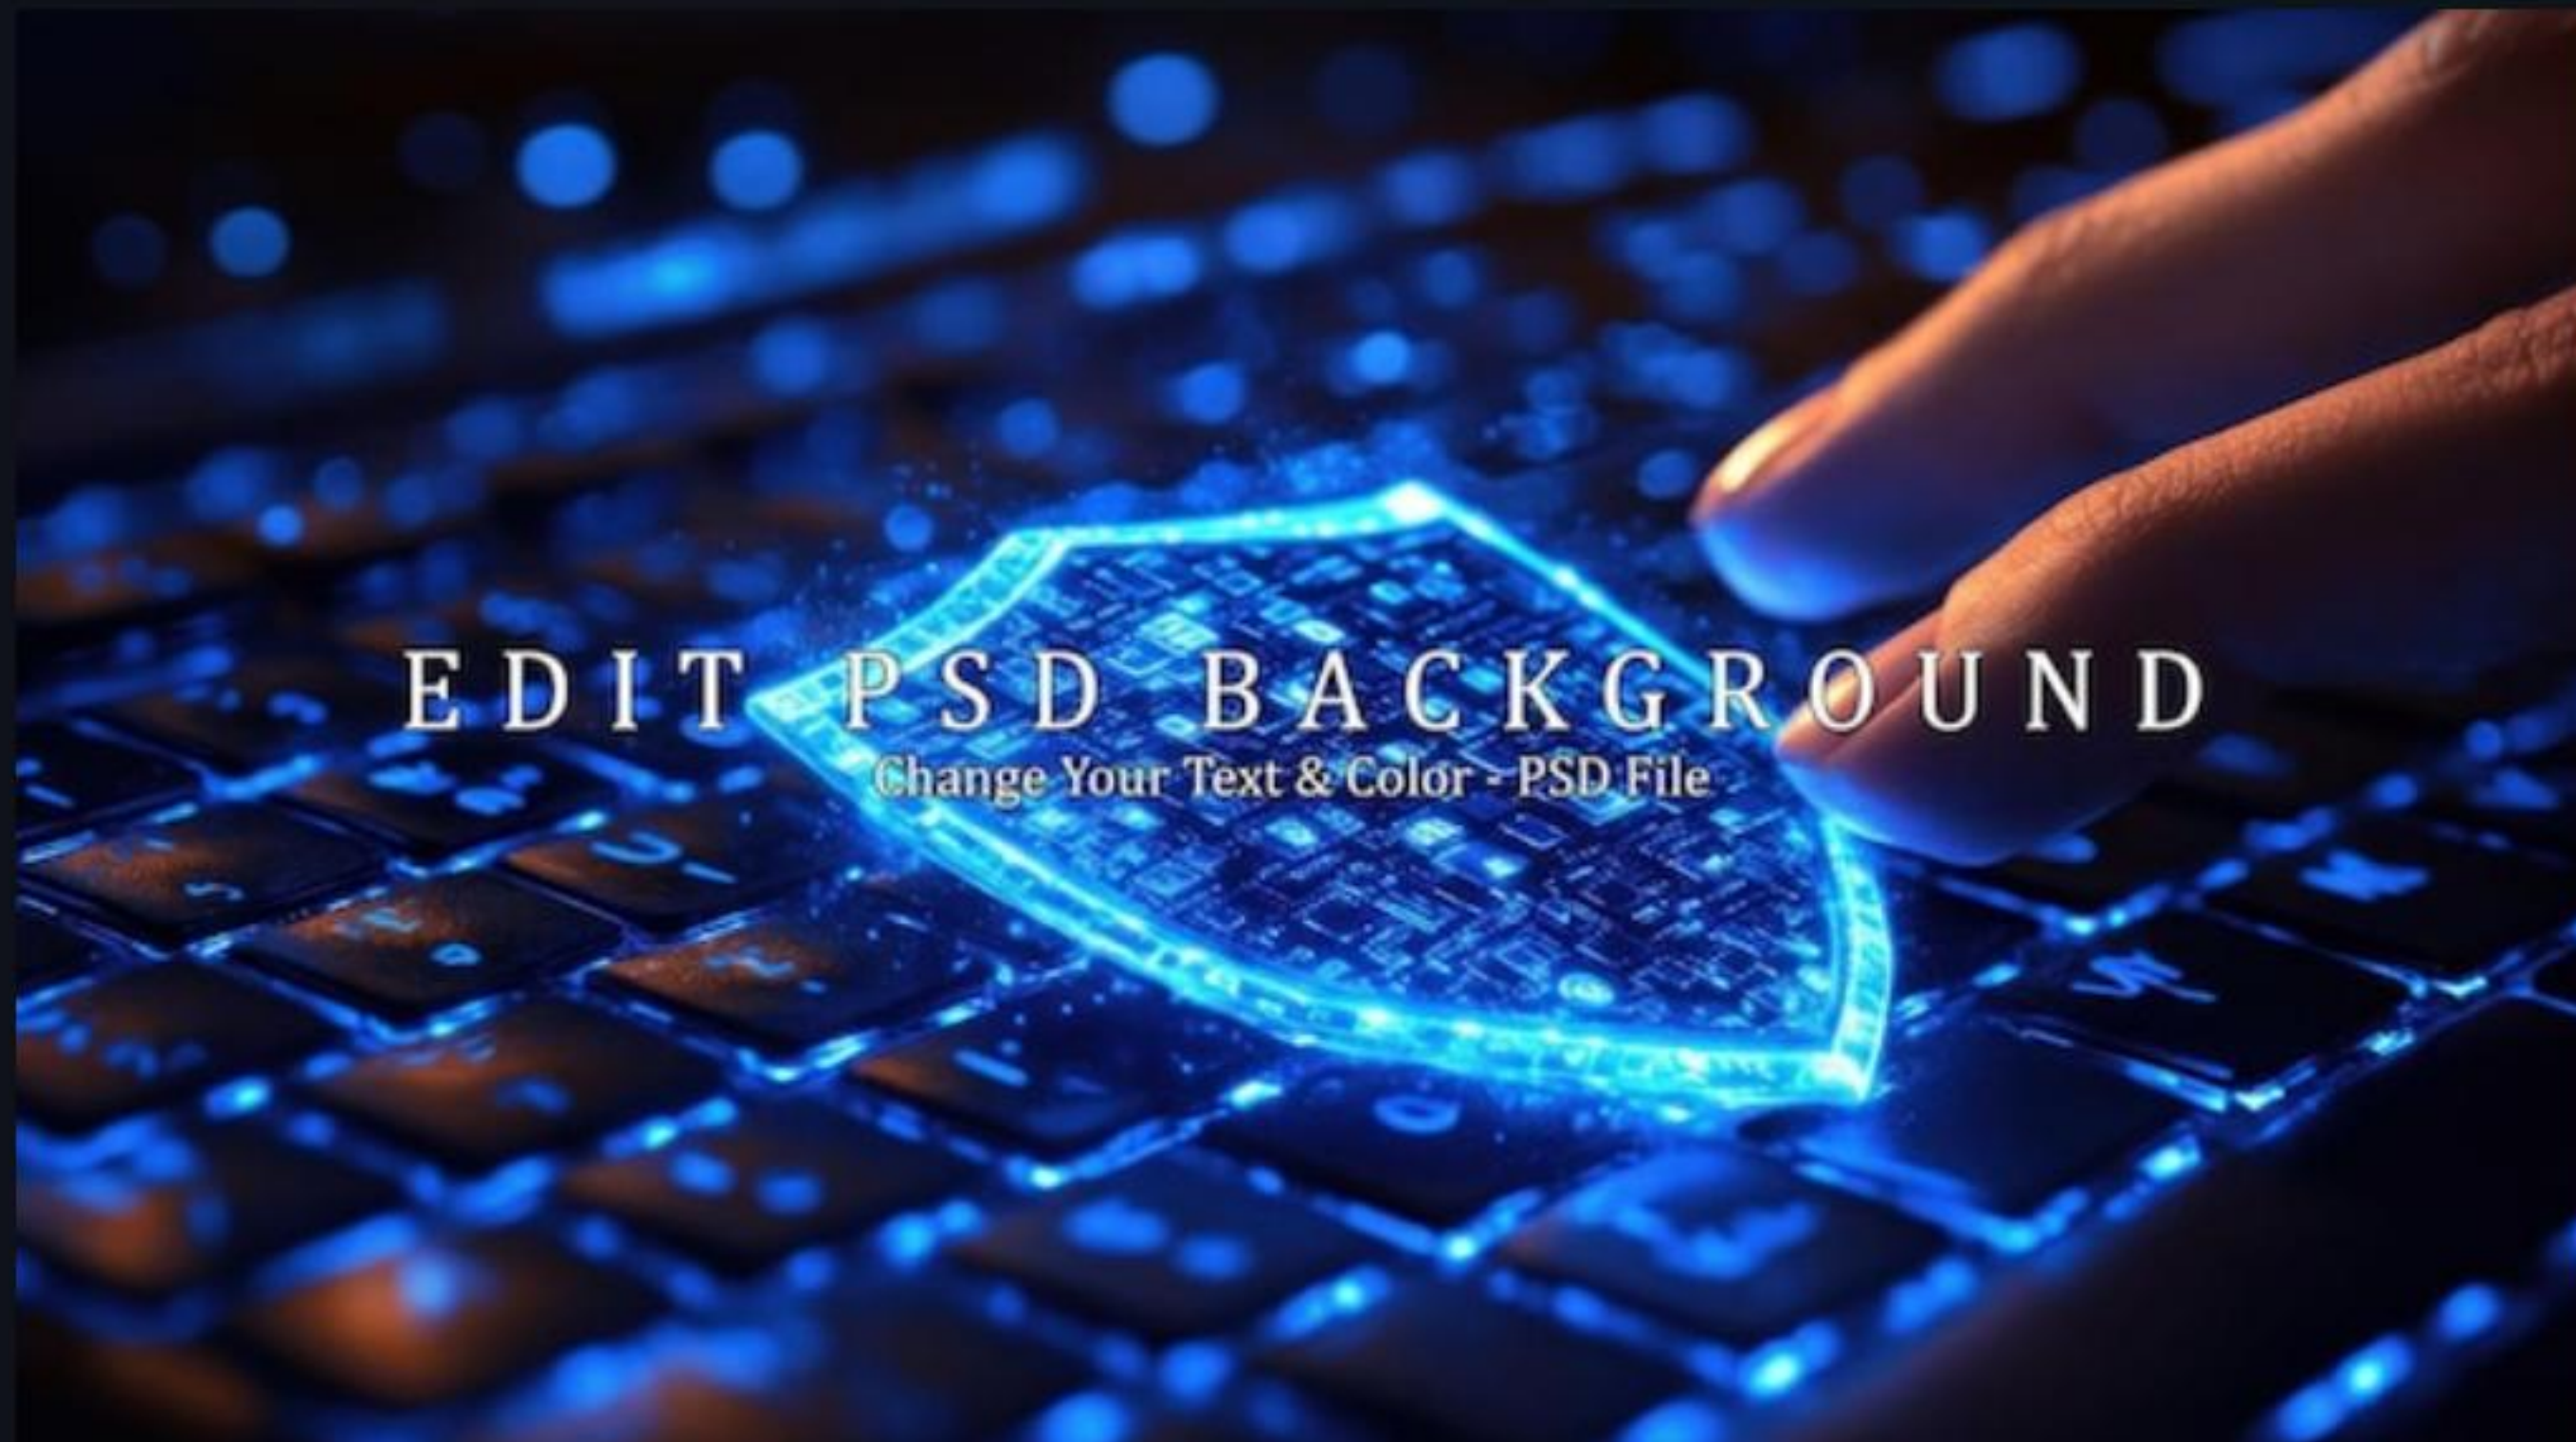

Autonomous Success

**100%**

# Safety, Governance, and Trust

---

Designed for high-stakes environments like mental health support, spiritual guidance, and institutions.

**Input-level SafetyGuard** Filters self-harm, violence, and hate.

**Emergency Protocols** Immediate responses for high-risk inputs.

**/v8/governed** Specialized endpoint for policy-constrained conversations.

# Emotion-Aware & Dhammically-Aligned

---

We move beyond “smart” AI into emotionally and ethically grounded AI.

## Emotion Engine v2

Detects emotional tone (sad, anxious, angry, happy) and computes valence/arousal vectors to adapt responses dynamically.

## Dhammic Alignment

Inspired by Theravada ethics. Avoids harmful, manipulative, or spiritually misleading answers, fostering wholesome mental states.

# Use Cases

---

## Wellbeing

Supportive, safe, emotionally-aware conversations & governance for high-risk content.

## Spiritual Tech

Dhammic-aligned Q&A, reflections, and ancient wisdom combined with modern AI infra.

## Education

Ethical tutoring assistants that provide emotionally-aware feedback and guidance.

## Agent Infra

Plug-and-play orchestrator for custom agents. Connects easily to existing LLMs.

# Business & Licensing Options

---

## Full IP Acquisition

One-time purchase of source code + IP rights for complete ownership.

## Enterprise License

Yearly license per organization with full enterprise support.

## Developer License

Affordable annual license for indie developers and small teams.

## Managed PaaS

NamoNexus runs, scales, and maintains the stack on your cloud.

# Roadmap (Next 6–12 Months)

---

# Why Now, Why Nammo Genesis

---

## Why Now

---

- ✓ Global acceleration in AI agents, but trust and safety are lagging.
- ✓ Growing interest in ethical, contemplative, and wellbeing-focused AI.
- ✓ Enterprises need safer, controlled agentic environments.

## Why Us

---

- ✓ **Real benchmarks**, not just promises.
- ✓ **Dhammic-aligned**, emotionally-aware behavior unique to our core.
- ✓ **Production infrastructure** ready on Cloud Run today.

# Let's Build Ethical Agents Together
